Since the close of the war the repub-licans have reduced the public debt over six hundred millions. And yet Goy-ernor Tilden, in speaking of resumption, says "there has been no progress" and that "the government is the sole delin-cutation. quent." In the meantime gold has de-clined from 146 to 110, and with this appreciation of greenbacks about forty millions of legal tenders have been cancelled. Our bonds have advanced 10@ 15 cents on the dollar, and the national 15 cents on the dollar, and the national recredit has steadily improved under republican administration at home and abroad, and the government is now able to place on the market a bond bearing the rate of 4 j per cent interest. Some three hundred millions of the 4 j per cent will be sold, and they are already quoted, in Lendon above par. With the proceed of the sale of 4 j per cents old bonds all called in and cancelled.

Gamler, John and Elizabath Nelson were guilty, as princi-pals, of the murder of Humphary; and John and Lee Dover, and Clementine Dove, are suilty as accessories; and B. Dover and Thos. It appears that Cobb came from Medigan, where he taught his structous doctrines until driven out.

The public debt was diminished \$3^{-1}29,000 last month, and since the close of the Democratic war has been brought down \$300,000,000. The south was cleased out so badly, as it deserved to be, that the most of this burden fell upon the north. What an actravagant party the Republican has been.
