OF THE
FRANKFORT WATER COMPANY,
OF FRANKFORT, KENTUCKY,
FOR THE
GOVERNMENT OF ITS WATER CONSUMERS,
AND
THE TARIFF
OF
WATER RATES,
TOGETHER WITH
RULES AND REGULATIONS
FOR THE GOVERNMENT OF PLUMBERS.

FRANKFORT, KY.;
PRINTED AT THE KENTUCKY YEOMAN OFFICE,
MAJOR, JOHNSTON & BARRETT.

1884.

RULES AND REGULATIONS

OF THE

FRANKFORT WATER COMPANY,

OF FRANKFORT, KENTUCKY,

FOR THE GOVERNMENT OF ITS WATER CONSUMERS.

Applications.

1. All applications for water service must be made in writing on the books of the Water Company, and must state the purposes for which water will be used. The use of water is strictly limited to the purposes disclosed by the written application, and any other use is forbidden. For any additional use a new written application must be made on the books of the Water Company. All premises used by two or more parties, or connected by gates or passage-ways, will be assessed against the applicant for an attachment.

Stop-cock.

2. There shall be a stop-cock in every attachment on the sidewalk just inside of the curbstone, which stop-cock and its box will be supplied by the Water Company, and shall be for its exclusive use and under its exclusive control. The Water Company will not be responsible for damages to buildings or their contents from any break beyond the street main, and water consumers are therefore advised, for their own protection, to provide at their own expense another stop-cock at the first suitable point beyond the stop-cock of the Water Company.

RULES AND REGULATIONS OF THE

2

Fixtures.

3. For the purpose of preventing waste of water by the improper construction of the water fixtures used by consumers, the Water Company shall have the right to control their selection. All waste of water by leaking fixtures, or by neglect of consumers or their servants, will cause the Water Company to stop the supply. No fixtures shall be so located as to be accessible to the public or persons occupying neighboring premises, and if water shall be allowed to be taken by persons having no right to its use the supply will be stopped. No alteration of, or addition to, fixtures is permitted without making previously a written application on the books of the Water Company and obtaining its consent.

Cisterns.

4. Persons on assessed premises, who pay for supplying them with water, are permitted to fill the cisterns on such premises with water from the water-works. But where such cisterns are used by persons occupying neighboring premises, and for all cisterns not kept water tight this permission will not apply.

Hand Hose.

5. The use of hand hose is limited to the hours of 7 to 9 o'clock, A. M., and 5 to 7 o'clock, P. M., and is forbidden during a fire, unless for protection against such fire. No sprinkling is allowed in front of premises which do not pay the Water Company for such service. The use of hand hose without a nozzle, or as a substitute for a fountain, or allowing it to run when not in use, is forbidden.

Boilers.

6. Persons taking water for supplying boilers for generating steam or for domestic use, and depending solely upon the water pressure for such supply, will do so at their own risk.

Constant Flow.

7. Watering troughs will not be permitted to receive a constant flow of water, but only to supply actual wants. Nor will continuous streams be permitted from any house fixtures, from

FRANKFORT WATER COMPANY.

3

leakage, as a protection against frost, or for any other cause. Where water is supplied to tanks, they must be kept water tight, and the supply pipes provided with ball cocks, which must be kept in good order.

Meters.

8. All meters will be owned and kept in repair by the Water Company. In furnishing water through a meter, and in charging for such quantities as indicated thereby, the Water Company does not claim that the indicated quantities thus charged are absolutely correct, but simply the closest approximation to absolute accuracy which the best meters will enable, close enough for legitimate business, and much nearer accuracy than by calculation. If any meter breaks down, or if the counter-gear of any meter is found out of order or broken, and not to have indicated the quantity of water usually consumed, then, provided the parties using the water passing through such disabled meter have done substantially the same business as during corresponding previous periods, they shall pay a bill for the water consumed during such period equal in amount to the bills for corresponding previous periods. Whenever the consumption of water is a smaller quantity than will amount at the regular rates to \$3.33 per month, or \$100 per annum, meter rent at the rate of one dollar per quarter will be charged in addition to the water consumed for each quarter in which it amounts to less than \$25. All such consumers may be required, at the option of the company, to make, as security for the payment of the water consumed, a deposit in money to an amount equal to their maximum bills. Such deposits shall not be transferable, and shall bear interest at the rate of six per cent, per annum for such length of time as they are in advance of water-bills due and rendered. When all bills are paid and the water supply discontinued, these deposits, with the interest, will be refunded by the company.

Water Rents.

9. Excepting sprinkling service, which shall be paid for the season and in advance, and meter service hereinbefore provided for, all water rents shall be due and payable at the office of the

RULES AND REGULATIONS OF THE

Water Company on the first days of March and September for the ensuing six months. When any water bills are overdue for ten days, the Water Company reserves the right to shut off the supply. Where the supply of water is to be discontinued, it shall be the duty of the consumer to notify the Company at its office to turn off the water, otherwise the water rent will continue, and must be paid until turned off.

Enforcement of Rules.

10. These rules will be strictly and impartially enforced by the Water Company. To that end its officers and servants shall have access at all proper hours to all premises supplied with water from the Water-works. If the water shall have been shut off from any consumer for non-payment of rents or any other violation of these rules, he shall pay all damages and arrears, and shall compensate the Water Company for the trouble and expense of shutting off and turning on again, before the water is turned on.

Amendments.

11. The right is reserved to amend or add to these rules and regulations, as experience may show to be necessary.

TARIFF OF WATER RATES.

CLASS I

Dwellings—Private.

For 1 room, per annum	\$3 00
For 2 rooms, per annum	3 60
For 3 rooms, per annum	4 20
For 4 rooms, per annum	4 80
For 5 rooms, per annum	5 40
For 6 rooms, per annum	6 00
For 7 rooms, per annum	6 60
For 8 rooms, per annum	7 20
For 9 rooms, per annum	7 80
For 10 rooms, per annum	8 40
For 11 rooms, per annum	9 00
Whence, each additional room, per annum	50

These rates shall apply to all rooms except attic rooms, small rooms over halls, and rooms in basements, on which the rate of 25 cents each per annum shall be assessed.

Cellars, bath-rooms, and pantries are not to be counted as rooms in making the assessments.

Green houses, each per annum	3 to 5.00
Horses or mules, each per annum	3.00
Hose attachments for sprinkling streets during the sprinkling season, and washing sidewalks, steps, windows, and fronts, of lots not exceeding 25 feet front and half the width of the street, each per annum	5.00
For each additional foot front	5.00

Corner lots—both fronts are to be charged (if sprinkled) at above rates, by aggregating and estimating both fronts as one equivalent front.

Hoses, automatic or rotative, lawn sprinklers, each per annum	\$1.00
Sinks, each faucet per annum	1.00
Urinals, each per annum	1.00
Water closets, with hand valves, each per annum	1.00
Water closets, with valve open during entire sitting, each per annum	1.00
Wash hand basins, each faucet per annum	50
Wash trays, tubs, or bins, each faucet per annum	50

CLASS II.

Boarding Houses.

For 1 room, per annum	\$4.00
For 2 rooms, per annum	5.00
For 3 rooms, per annum	6.00
For 4 rooms, per annum	7.00
For 5 rooms, per annum	8.00
For 6 rooms, per annum	9.00
For 7 rooms, per annum	10.00
For 8 rooms, per annum	11.00
For 9 rooms, per annum	12.00
For 10 rooms, per annum	13.00
For 11 rooms, per annum	14.00
Thence, each additional room per annum	1.00

These rates shall apply to all rooms except attic rooms, small rooms over halls, and rooms in basements, on which shall be assessed the rate of 50 cents each per annum.

Cellars, bath-rooms, and pantries are not to be counted as rooms in making the assessments.

TARIFF OF WATER RATES.

Rooms in rear or out-buildings, when used by servants, are to be assessed 25 cents each per annum, and when occupied by tenants, one-half dwelling-house rates.

Or, in such cases as the Water Company may determine, a charge of 1 1/2 cents per square yard of street surface sprinkled during the season.

For the use of hose for all other purposes not herein enumerated, special rates will be fixed by the Water Company.

CLASS VIII.
Manufactories.

Artificial stone, per annum	\$5 to \$10 00
Bakeries, per bbl. of flour	5 00
Belting, per annum	10 to 30 00
Bitters, per annum	10 to 30 00
Bleacheries, per annum	5 to 15 00
Bolt machines, each per annum	5 00
Broom binderies, each per annum	3 to 5 00
Brick yards, each table per season	17 50
Candy and soda, each per annum	5 to 15 00
Canning fruit, each per annum	5 to 10 00
Casing tobacco, each per annum	2 to 5 00
Catsup, pickles, &c., each per annum	5 to 10 00
Carriages, each per annum	10 to 20 00
Children's carriages, each per annum	5 to 10 00
Chair, each per annum	5 to 10 00
Car trimmings, each per annum	5 to 10 00
Coffee roasting and wetting, each per annum	5 to 10 00
Coke ovens, each per annum	5 00
Cooking licorice and casing tobacco, each per annum	5 00
Cooking bones—fertilizers, each per annum	10 to 25 00
Coloring hemp—duster factory, each per annum	5 to 10 00
Coffee and spice mills, each per annum	3 to 5 00
Cooperages, each per annum	5 to 10 00
Dissolving or rendering lye, or soap factory, per boiler per annum, 15 to 20 00	
Distilleries, small, each per annum	5 to 50 00
Dyers and scourers, each per annum	10 to 20 00
Engines, small, each per annum	5 to 10 00
Edged tools, each per annum	5 to 10 00
Equalizing and compounding Liquors, each per annum	5 to 25 00
Felt roofing, each per annum	10 to 20 00
Foundries, each machine moulder, each per annum	1 50
Foundries, each plate moulder, each per annum	2 25
Foundries, brass, each per annum	3 to 10 00
Foundries, type, each per annum	5 to 10 00
Foundries, bell, each per annum	7 to 15 00
Forges, blacksmiths, each per annum	1 50
Forges, steam hammer, each per annum	3 00
Furniture, each per annum	5 to 10 00
Gang saws in stone yard, each gang per annum	5 to 15 00
Gas apparatus, each per annum	3 to 5 00
Grindstones, each per annum	5 to 10 00
Hemp dusters, each per annum	5 to 10 00
Horse shoe, each per annum	10 to 30 00
Horse collar, each per annum	5 to 20 00
Hub and spoke, each per annum	5 to 10 00

Incrustation fluid, each per annum	\$5 to \$10 00
Laundries, each per annum	5 to 15 00
Lather soaking tanks for curriers, each per annum	10 to 20 00
Lather soaking tanks for shoe factories, each per annum	5 to 10 00
Lard oil and soap, each per annum	20 to 50 00
Marbleizing works, each per annum	5 to 10 00
Mineral water, each per annum	5 to 30 00
Paper box, each per annum	3 to 8 00
Photographic galleries, each per annum	10 to 20 00
Planing mills, each per annum	5 to 10 00
Plow, each per annum	5 to 10 00
Picture frames, each per annum	5 to 10 00
Potteries, each per annum	10 to 30 00
Painting materials for artificial stone, each per annum	10 to 30 00
Printing offices, each per annum	3 to 10 00
Recycling Liquors, each per annum	10 to 30 00
Kotry washing machines, each per annum	3 to 10 00
Revolving table in stone or marble yard, each per annum	10 to 20 00
Rouling tanks in slaughter-houses, each per annum	3 to 10 00

Tobacco stemmories, each per annum	5 to 20 00
Tobacco factories, each per annum	5 to 20 00
Tobacco casing, each per annum	5 to 20 00
Tobacco warehouses, each per annum	5 to 20 00
Vanilla extract, each per annum	5 to 15 00
Vinegar, each per annum	5 to 15 00
Wagon, each per annum	5 to 10 00
Wagon grease, each per annum	5 to 10 00
Wooden ware, each per annum	5 to 10 00

The above rates are for the general uses of water in and about the manufactures, including ten hands. For each hand in a manufacture over ten in number, per annum 10 cents.

For all fixtures or special uses of water in and about manufactures, the same rates as elsewhere for similar purposes.

TARIFF OF WATER RATES.

CLASS IX.

By Meter Measurement.

For 1,200 gallons daily, or less, per month	\$5 40
For over 1,200, up to and including the first 5,000 gallons daily, per 1,000 gallons	15
For the second 5,000 gallons daily, per 1,000 gallons	14
For the third 5,000 gallons daily, per 1,000 gallons	13
For the fourth 5,000 gallons daily, per 1,000 gallons	12
For the fifth 5,000 gallons daily, per 1,000 gallons	11
For the sixth 5,000 gallons daily, per 1,000 gallons	10
For the seventh 5,000 gallons daily, per 1,000 gallons	9
For the eighth 5,000 gallons daily, per 1,000 gallons	8
For the ninth 5,000 gallons daily, per 1,000 gallons	7
For the tenth 5,000 gallons daily, per 1,000 gallons	6
For all additional quantities, per 1,000 gallons	5

CLASS X.

Quantity Assessments, when Estimated.

Daily average of 500 gallons or less, per 1,000 gallons	\$0 35
Daily average of 500 to 1,000 gallons, per 1,000 gallons	33
Daily average of 1,000 to 2,000 gallons, per 1,000 gallons	31
Daily average of 2,000 to 3,000 gallons, per 1,000 gallons	29
Daily average of 3,000 to 4,000 gallons, per 1,000 gallons	27
Daily average of 4,000 to 5,000 gallons, per 1,000 gallons	25
Daily average of 5,000 to 6,000 gallons, per 1,000 gallons	23
Daily average of 6,000 to 7,000 gallons, per 1,000 gallons	21
Daily average of 7,000 to 8,000 gallons, per 1,000 gallons	19
Daily average of 8,000 to 10,000 gallons, per 1,000 gallons	17
Daily average over 10,000 gallons, per 1,000 gallons	15

CLASS XI.

Stables.

Livery and sale, for average number of stalls in use, each per annum	\$1 50
Livery and sale, for average number of wheeled vehicles, each per annum	1 25
Livery and sale, for average number of wheeled vehicles, with hose attachment on premises, each per annum	3 00
Private, for each horse or mule used in buggy, carriage, wagon, or for draft purposes, per annum	1 25

TARIFF OF WATER RATES.

Private, for each buggy, carriage, or vehicle, if washed by hand, per annum	\$1 25
Private, for each buggy, carriage, or vehicle, with hose attachment on premises, per annum	3 00
Private, for each cow or head of cattle, per annum	1 00

Theaters, per annum	10 to 20.00

RULES AND REGULATIONS

OF THE

FRANKFORT WATER COMPANY,

OF FRANKFORT, KENTUCKY,

FOR THE

GOVERNMENT OF PLUMBERS.

1. No person shall lay any service pipe or do any kind of plumbing work for the introduction or supply of water from the water-works of the Frankfort Water Company, without first having obtained for the respective separate job, a written permit of the said Water Company.

2. A plumber wishing to do a plumbing business in connection with the said water-works shall first give a bond to the said Water Company, with surety or sureties approved by it, in the penal sum of two thousand dollars (\$2,000) that he will be governed by the existing rules and regulations of the Water Company, and also any that may hereafter be passed, and to indemnify and save harmless the Water Company of and from all accidents, damages, and losses which it may sustain by reason of lack of compliance with the rules and regulations as are now, or may hereafter be, established by the Water Company, or from the use of defective material or bad work.

3. Plumbers shall make full and complete returns to the office of the company of the uses for and to which water is applied under any permit granted for the use of water. Said return must be made by the plumber doing the work within forty-

eight hours after the completion of said work, and after said return is made and found correct by the company, then water shall be turned on said premises and charged for in accordance with the rules and regulations of the company.

4. Plumbers in making returns of permits shall give the name of the street in which the attachment has been made, and whether the service pipe enters the premises on the north, south, east, or west side of the said street, and also state accurately the distance of the stop-cock box from the line of the nearest cross street, lane, or alley, or other well-defined public place, or number of lot and block. The measurements to be recorded in feet and twelfths of a foot. In cases where the alignment of any street, lane, or alley is not well defined, the measurement must be intelligently described in the return.

5. No plumber shall make any attachment to old pipe or water-fixtures in premises from which the water has been shut off without the party desiring such work to be done having obtained a re-issue and permit for the same. Nor shall any plumber make any alteration in any pipe or water fixture attached to the water-works' distributing pipes, to conduct water into adjoining premises or into stables, baths, water-closets, wash-basins, cisterns, fountains, or for any other purpose whatever, without a written permit is first obtained from the Water Company for each and every separate job of such modification in the water fixtures; and in no case shall any plumber after the completion and trial of any job of plumbing work, be it the first introduction of service pipe, an extension, or a repair, leave the water on the premises, but shall in all cases close the stop-cock on the sidewalk and return his permit to the office of the company.
