

WATER WORKS—A correspondent says: "Last winter the Legislature passed a law, incorporating "The Rochester Water Works Company," for the purpose of supplying this city with pure, wholesome water, and designated Levi A. Ward, Isaac R. Elwood, Azariah Boody, Chas. A. Jones, Wm. A. Reynolds, E. Darwin Smith, Hamblin Stilwell, Samuel Miller, Wm. Buell, John B. Robertson and Freeman Clarke, as the first Directors. The object of this company is of sufficient importance to attract attention, and yet we are not aware that any steps have been taken to procure so desirable an article as pure and wholesome water."
