PRESENTATION AND REFERENCE OF PETITIONS,

CLAIMS, &c.

By Ald. Cowles—Bills of Geo. W. Con-nolly, Thomas Brooks, Vacuum Oil Co., Highway Department and B. F. Blackhall. Fire Department Committee.

By Ald. Rogers-Remonstrance of P. H. Sullivan, and others, against the passage of an ordinance for the extension of Waverly

Place. Table.
Ald. Rogers presented the following:

To the Honorable the Moyor and Common Conncil of the City of Rochester, N. Y. The memorial of Thomas B. Rand, of the

city of New York, and his associates, re-

spectfully showeth:

That your memorialists have become the holders and owners of the lands, property, estate, reservoirs, pipes, rights of land and water, water works, fixtures and appurten-ances, and the rights, franchises and ances, and the rights, franchises and privileges of the Rochester water works heretofore company, a cocreated for the corporation created for the purpose of supplying water to the city of Rochester: That their title thereto has become perfect, and that they are now ready to proceed with the construction and completion of said water-works, and the furnishing of water to the said city and its inhabitants: That they have become satisfied that the main wooden conduit pipe laid by the said company, from the Honeove Outlet at Smithtown to the

city of Rochester, is not sufficient for the purposes for which the same was constructed.

and needs to be relaid in iron:

That your Memorialists believe they can, and hereby offer to, relay the said line of pipe with iron, and to bring the water from the said outlet near Smithtown, to the said city of Rochester, during the present year, They also offer to construct a line of 1872. metalic, brick or other proper conduit, from Smithtown, aforesaid, to Hemlock Lake, or that vicinity, and to complete the same during the year 1873.

They also offer and propose to lay down such an amount of pipe in the streets of said city during the year 1872, as shall, with the pipe now laid in the city, and possessed by your memorialists, amount to at least thirty miles of pipe, and to extend the same to at least forty miles of pipe during the year 1873. They also offer to furnish and set hydrants, of the most approved pattern, upon the line of streets in which the said pipes shall be laid, and to attach the same to the pipes, to the number required for the use of water for public purposes in said city, and which they are informed and believe are in other cities set at the rate of about one to every four hundred feet, lineal measure, of the pipes laid. They also offer, and propose to furnish, through said mains and pipes, copious and ample supply of and wholesome water from Hemlock Lake, for the following public uses and purposes, viz.: The supply of the fire hydrauts so to be set as aforesaid; ten fountains for public parks, squares and places; for the City Hail, Public Schools, fire engine houses, orphan asylums, hospitals, and all other public buildings that are now in said city or that may be constructed or owned by the city therein during the continuance of the contract to be made with your memorialists, whenever the mains are laid in the streets upon which said buildings are or may be situated, to points opposite to the same.

Being aware of the necessities of the city, and believing it is of very great importance to every interest, public and private, to secure a supply of water at the earliest period, they propose and undertake to furnish water from Smithtown during this year, and from Hemlock Lake during the year 1873. Although the water taken from the Honeove outlet may not be such as the inhabitants of the city would be satisfied with permanently, yet if a supply can be obtained before another winter, for the protection of the city against fire and other purposes, it is submitted that another year is but a reasonable period for carrying the works to Hemlock

Lake.

For the laying of such pipe, the furnishing and setting of such hydrants and the turnishing of such supply of water, your memorialists ask a rate of compensation which shall be just and fair to both parties to the arrangement, considering the benefits to be obtained by the city and its inhabitants

therefrom.

They offer to give such security as your honorable body shall deem reasonable and proper, that the terms of this proposition snall be complied with, and water introduced into the city during the present year, and they invite such action upon the part of vour honorable body as shall enable them, in case this proposition is accepted, to commence immediately the construction of said works: as it must be obvious to all that in case water is to be supplied to the city during the present year, as little time as possible should be consumed in the steps preliminary to the commencement of the work.

Should the substance of the foregoing proposition need to be changed in any respect to provide for the rights, interests and welfare of the city, your memorialists are willing to consent to such modification as may be just and proper.

THOMAS B. RAND, for himself and his as-

By Lucien Birdseye, their Attorney.

Ordered received, filed and published. — By Ald. Rogers—Resolved, That the communication of Thomas B. Rand and others, be referred to a special committee, consisting of three members of this Board, to be designated by ballot, and that they be requested to procure and present a draft of the most favorable contract that could be made with the parties, and report the same for the consideration of this Board.

Ald. Selve moved to amend by striking out the words, "a special, committee of this Board, to be designated by ballot," and suostitute therefor the words, "the present Water Works Committee." Lost by the Lost by the foilowing vote:
