

ALEXANDRIA WATER COMPANY.—
NOTICE.—In lieu of the Water Rates for the supply of families, heretofore published, the Board of Directors, with the view of placing the Mount Cameron Water within the reach of every family, has changed the present mode of assessment (which was derived from other cities) and instead of making the front measurement of dwellings a standard, has adopted the following as the more equitable mode of assessing the Water rents. With this exception the rates are unchanged.

For private dwellings, the annual rent of which does not exceed \$90.....	\$5
For private dwellings, the annual rent of which is over \$90 and under \$120.....	6
For private dwellings, the annual rent of which is \$120 and under \$150.....	8
For private dwellings, the annual rent of which is \$150 and upwards.....	\$10

The Board, hereby, also gives notice to those at present using the water, and others who may introduce it, that the rents will not commence until the 1st day of August, when they will be payable up to November 1st.

The Board reserves to itself the right of estimating the rental value of dwellings occupied by the proprietors thereof, and in other cases of doubt.

EDWARD S. HOUGH,
Secretary.
