

LIST OF WATER-WORKS

IN THE UNITED STATES AND CANADA, AS FAR AS KNOWN, JANUARY, 1882.

The first List of Water-Works was published by J. J. R. Croes, C. E., in 1876, for the Centennial Commission of the American Society of Civil Engineers. In 1877 to 1881 Edward Prince, C. E., of Quincy, Illinois, published several editions of revised Lists, compiled by him by great perseverance. This List is based upon his last one, with such corrections and additions as have been discovered during the past year. There are no water-works in several towns included in former lists.

Private enterprises are marked thus *.
